

# CIP TC - Concrete In Practice

## **Testing Concrete Series** (20 Collated Sets)

This compilation of Concrete in Practice topics are related to testing and acceptance of ready mixed concrete. They are useful to inform testing technicians, contractors and design professional on accepted industry standards.

### **10 Essential Topics**

- **Jobsite Addition of Water - (CIP #26)**
- **Discrepancies in Yield - (CIP #8)**
- **Loss of Air Content in Pumped Concrete - (CIP #21)**
- **Acceptance Testing of Concrete - (CIP #41)**
- **Making Concrete Cylinders in the Field - (CIP #34)**
- **Testing Compressive Strength of Concrete - (CIP #35)**
- **Low Concrete Cylinder Strength - (CIP #9)**
- **Strength of In-Place Concrete - (CIP #10)**
- **Flexural Strength of Concrete - (CIP #16)**
- **Maturity Methods to Estimate Concrete Strength - (CIP #39)**
